

IAC Releases Updates to Pediatric Echocardiography Standards - New Standards Effective December 1, 2017

JUNE 1, 2017 | As an accreditation organization, IAC Echocardiography is committed to maintaining a program that balances the changing needs of both the echocardiography community and the general public by influencing the quality of patient care provided. The [IAC Standards and Guidelines for Pediatric Echocardiography Accreditation](#) are the most important component of that commitment. Composed by physicians and sonographers from the [IAC sponsoring organizations](#), the Standards are reviewed periodically by the Board of Directors and revised as needed.

As a component of the accreditation process, the IAC Echocardiography Board of Directors preliminarily approved the proposed Standards which were posted to the IAC Echocardiography website for a 60-day public comment period from March 1-May 1, 2017. Following careful review and consideration of the comments received, the Board of Directors voted final approval of the Standards.
