IAC to Release Newly Formatted Standards for Vascular Testing, Echocardiography, Nuclear/PET, MRI and CT Facilities

AUGUST 1, 2012 | The IAC is continuing to evolve the accreditation process with the publication of newly formatted standards on August 15, 2012 (effective January 1, 2013). New standards for participating Vascular Testing, Echocardiography, Nuclear/PET, MRI and CT facilities have been formatted for easier use and consistency across all modalities.

Stay tuned for the upcoming announcement that the new IAC Standards are available for use by participating facilities!
