

PRE-SUBMISSION CASE REQUIREMENTS CHECK NOW AVAILABLE

JUNE 2014 | The pre-submission case requirements check for applicant facilities (Vascular Testing, Echocardiography, Nuclear/PET, MRI, CT/Dental) is currently available. **Applicant facilities may elect to upgrade the application now or wait for the upgrade to occur on June 15th, 2014.** The pre-submission check is initiated by the facility after the application questionnaire is completed but prior to the final application submission. The check is then performed by IAC staff within two business days and was designed to rectify errors and inappropriate case study selection made by facility users in an effort to provide a more efficient application submission process. To learn more about the process and how to access this new feature, visit intersocietal.org/iac/casecheck.htm.
