Proposed Changes to IAC Vein Center Standards Now Open
PUBLIC COMMENT THROUGH DECEMBER 5TH - THIS COMMENT PERIOD IS NOW CLOSED

OCTOBER 2016 | In keeping with the IAC’s continued commitment to streamlining and simplifying the accreditation process, we are pleased to announce that the public now has the opportunity to comment on proposed changes to the IAC Standards for Vein Center Accreditation: Superficial Venous Evaluation and Management.

The Standards are reviewed periodically by the IAC Vein Center Board of Directors and revised as needed. As a new component to the accreditation process, proposed Standards that have been approved by the Board of Directors are then posted to the IAC website for a 60-day public comment period. These proposed Standards include changes to the current Standards, the removal of current Standards and/or the addition of new Standards.

Beginning October 5, 2016, the public may visit the IAC website at intersocietal.org/iac/comment_period.htm to comment on any of the proposed Standards until December 5, 2016. In order to provide comments, the IAC Comment Form must be completed and submitted electronically by the provided deadline.

To Submit a Comment on Proposed Standards

1. Visit the IAC website at intersocietal.org/iac/comment_period.htm
2. Select the proposed Vein Center Standard on which to comment;
3. A window will expand with the description of the Standard and the proposed change on the left;
4. On the right, fill in your name and comment in the boxes provided;
5. Hit Submit.

At the close of the comment period, the IAC Vein Center Board of Directors will review any submitted comments, consider modifications as needed and vote for final approval of the Standards. Facilities are notified of changes to the published Standards, and the most current version of the Standards can be viewed or printed from the IAC Vein Center website at intersocietal.org/vein/seeking/vein_standards.htm.
